# Index to Volume 40

## Subject Index

(E) Editorial

(F) From the Editors

(V) Views From Funding Agencies

(B) Brief Reports

(O) Original Articles

### A

#### Access

- to AIDS drug assistance programs (O), 429
- to cardiac care myocardial infarction, race and (O), I-86
- delayed by race, age, and site of care (O), I-97
- in health care (E), I-1
- for homeless women (O), 510
- insurance and delivery system effects on for low-income pregnant women (O), 1048
- preventable hospitalization rates and in managed care (O), 315
- racial disparities in (E), I-3
- to VA community-based outpatient clinics (O), 561, 578
- to VA outpatient care, race and (O), I-117
- Accountability, for substance abuse and mental health services in managed care (O), 1238
- Accreditation, performance and market impact of (O), 325
- Action research
  - of Midpeninsula Health Service (O), II-32
  - of Robert Wood Johnson Clinical Scholars Program (O), II-25
- Activities of daily living (ADL)
  - with increased rate of surgery for first-eye cataract patients (O), 1080
  - levels of in nursing homes (O), 868
  - in stroke rehabilitation (O), 1036
- Adaptive testing, multidimensional, for mental health problems in primary care (O), 812
- Adherence
  - in medical treatment outcomes (O), 794
  - organizational predictors of (O), 1172
  - predictors of in indigent rural population (O), 1294
- Administrative claims data, in medical care cost analysis (O), III-63
- Administrative data
  - in comorbidity assessment (O), IV-26
  - comparing postoperative complication rates across hospitals (O), 856

- hazards of stroke case selection by (O), 96
- in identifying and measuring hospital characteristics (O), IV-96
- in identifying cancer relapse (O), IV-75
- methodological issues in use of for cancer treatment surveillance (O), IV-69
- socioeconomic status in (B), 60
- validity of comorbidity information from (O), 675
- Administrative databases, ICD-9-CM Code diagnosis information in (E), 847
- Adolescent reporting, of clinician counseling, health care use, and health behaviors, reliability in (O), 26
- Adverse events, in postacute and long-term care settings (O), 227
- Advertising, economic messages in (B), 840
- African American population
  - managed care insurance effect on use of preventive care by (O), 743
  - process of care for (O), 824
- Age, in delayed presentation to cardiac care (O), I-97
- Agency for Health Care Policy and Research-funded articles, published in *Medical Care* (E), 1003
- Agency for Healthcare Research and Quality, John M. Eisenberg's directorship of (E), 1012
- Aging, duration of ambulatory visits and in managed care (O), 606
- AIDS disease
  - drug assistance programs for (O), 429
  - measuring medication for (O), 1270
- AIDS Screen Code, for HIV-infected drug users (O), 976
- Alternative medicine, utilization of U.S. adults (B), 353
- Ambulatory care
  - assessing measures of quality of (O), 155
  - preventable hospitalization rates and (O), 315
  - screening guidelines in, organizational predictors of adherence to (O), 1172

Ambulatory care sensitive conditions, primary care, HMO enrollment, and hospitalization for (O), 1260

Ambulatory visits, duration of in managed care (O), 606

Amputation, among veterans with peripheral arterial disease (O), 1-106

#### Angioplasty

delayed presentation of by race, age, and site of care (O), 1-97

race and outcomes of for myocardial infarction in veterans (O), 1-86

Antiretroviral therapy, outpatient care patterns and longitudinal intensity of (O), 976

Antiviral agents, efficacy and costs of in AIDS drug assistance programs (O), 429

APACHE-weighted comorbidity score, in predicted mortality of intensive care unit patients (O), 929

Applied psychometrics, of VA cardiac patients, racial differences in (O), 1-72

Arthritis, total hip replacement for in Hispanic Medicare beneficiaries (O), 451

Asia, quality of life among bilingual populations in (O), 105

Asian/Pacific Islanders, managed care insurance effect on use of preventive care by (O), 743

#### Asthma

Medicaid-enrolled children with (O), 303

patient compliance in quality of ambulatory care for (O), 155

#### Attitudes

racial differences in (O), 1-72

toward automated drug alerts (O), 1161

Automated drug alerts, benefits and barriers to using (O), 1161

#### Autonomy

of desperately ill patients (O), V-64

in informed consent (O), V-12

## B

Back injuries, provider networks and health care costs for (O), 686

Balanced Budget Act, for hospital-based nursing home costs (O), 405

Behavioral decision research, in improving informed consent (O), V-30

Behavioral health, quality measurement and accountability for in managed care (O), 1238

#### Benchmarking

mortality trends in (O), 879

for patient socioeconomic status effects on physician profiles (O), 717

of VA medical centers in preventive services delivery (O), 540

Benefit structure, for office visits and cancer screening among women (O), 1060

#### Bias

in physician response rates to questionnaires (B), 834

in treatment decisions (O), V-30

Bilingualism, quality of life and (O), 105

Birth outcomes, improving for low-income pregnant women (O), 1048

Birthweight, insurance and delivery system effects on for low-income pregnant women (O), 1048

#### Blacks

cancer treatment and survival in (O), 1-14

cardiac care and outcomes of myocardial infarction in (O), 1-86

disparities in health care among (O), 52

in intensive VA treatment programs for

posttraumatic stress disorder (O), 1-52

mistrust of health care system by (E), 81

postoperative outcome of carotid

endarterectomy in (O), 1-35

willingness for blood and organ donation in (O), 85

Blessed Dementia Rating Scale (BDRS), for cognitive impairment screening (O), 771

Blood donation, race and gender differences in (O), 85

Board certification, for international medical graduates (B), 68

Brachytherapy, SEER-Medicare data on (O), IV-49

#### Breast cancer

measuring mammography performance for (O), III-86

patient choice of treatment of (O), 1068

screening measurement with Medicare claims data (O), IV-36

SEER-Medicare data in estimating costs of (O), IV-104

sociodemographic determinants of breast conserving treatment of (O), 181

variations in care for (E), 177

Breast conserving treatment, persistent differences in sociodemographic

determinants of (O), 181

Breast neoplasms, SEER-Medicare data in measuring surgery for (O), IV-43

- British Columbia, drug pricing and utilization among elderly in (O), 640
- Burden of disease, measure-dependent variation in (B), 260
- Bypass grafts, delayed presentation of by race, age, and site of care (O), 1-97

## C

- CAHPS survey, content analysis of (O), 732
- California, managed care effect on preventable hospitalization rates in (O), 315
- Cancer
  - analysis of costs related to (O), III-63
  - of breast, measuring mammography performance for (O), III-86
  - hospice use for (B), 73
  - individual differences in quality of life with (O), III-39
  - measuring quality of care with (O), III-73
  - Medicare chemotherapy claims for (O), 201
  - outcomes research, quality improvement, and performance measurement for (O), III-89
  - outcomes research on (E), III-1
  - framework for (O), III-101
  - insights from (O), III-92
  - National Cancer Institute's quality-of-care initiative in (O), III-3
  - outcomes of symposium on (O), III-104
  - patient outcomes in from physician-research perspective (O), III-11
  - in physician-researcher (O), III-20
  - race in treatment and survival with in veterans (O), I-14
  - relapse of, SEER-Medicare data in identifying (O), IV-75
  - screening for
    - insurance coverage for office visits and (O), 1060
    - measuring with Medicare claims data (O), IV-36
  - SEER-Medicare data on health services research on (O), IV-3
  - stage of and survival rate (O), 362
- Cancer care, health-related quality of life instruments in (O), III-31
- Cancer patients
  - surgeon perspective on outcomes in (O), III-28
  - variations in care for (E), 177
- Cancer-related therapy
  - administrative claims data in surveillance of (O), IV-69
  - chemotherapeutic, SEER-Medicare data in identifying (O), IV-55
  - complications of, SEER-Medicare data in measuring (O), IV-62
  - physician-researcher understanding of quality of life with (O), III-20
  - SEER-Medicare data for (E), IV-1
  - SEER-Medicare data for (O), IV-49
  - SEER-Medicare data in estimating costs of (O), IV-104
  - SEER-Medicare data in measuring (O), IV-43
- Cancer research
  - outcomes of, Seattle symposium on (O), III-54
  - quality of life assessment in (O), III-56
- Cancer surgery, SEER-Medicare data in measuring (O), IV-43
- Capacity assessment, of decisionally-impaired adults (O), V-20
- Cardiac care, delayed by race, age, and site of care (O), I-97
- Cardiac performance profiling, socioeconomic status in (B), 60
- Cardiac testing, racial differences in perception of physician communication regarding (O), I-27
- Care process
  - for Medicaid-enrolled children with asthma (O), 303
  - in stroke rehabilitation (O), 1036
- Caregiving, gender differences in (O), 1249
- Carotid endarterectomy, racial variations in outcome of (O), I-35
- Case-control studies, of hip replacement procedures in Hispanic population (O), 451
- Case identification, in mammography performance measurement (O), III-86
- Case management
  - of elderly in managed care (O), 416
  - of seniors at high risk for high hospital utilization (O), 782
- Case mix
  - adjustment of for hospital-based nursing homes (O), 405
  - in changing physician practice patterns (O), 1016
  - in outpatient care quality assessment (O), 237
- Cataracts, change in subjective visual function with increased rate of surgery for (O), 1080
- Cerebral palsy, selecting health care plans for people with (O), 732
- Cerebrovascular disease, racial differences in outcome of carotid endarterectomy for (O), I-35

- Cervical cancer screening, among underserved women in large urban county health system (O), 891
- Charlson index, validity of comorbidity information from (O), 675
- Chemotherapy
  - construct validity of Medicare claims for (O), 201
  - racial differences in use and survival with (O), I-14
  - SEER-Medicare data in identifying (O), IV-55
- Children
  - consumer assessments of in health plans (O), 145
  - Medicaid-enrolled for asthma (O), 303
  - mental health problems in, multidimensional adaptive testing for (O), 812
  - pediatricians overestimating importance of health concerns of (B), 996
- Choice
  - of breast cancer treatment (O), 1068
  - in satisfaction with pharmacies among elderly population (O), 1283
- Choice behavior, by managed care experts (O), 375
- Chronic disease, pediatrician and children's concerns about (B), 996
- Claims data
  - on cancer chemotherapy use (O), IV-55
  - in comorbidity assessment (O), IV-26
  - in estimating cancer-related health care costs (O), IV-104
  - linking physician characteristics and (O), IV-82
  - in measuring breast, colorectal, and prostate cancer screening (O), IV-36
  - in medical care cost analysis (O), III-63
  - methodological issues in use of for cancer treatment surveillance (O), IV-69
- Cleveland Health Quality Choice, in finding high-quality efficient providers (E), 853
- Clinic function, in quality of ambulatory care assessment (O), 155
- Clinical counseling, reliability in adolescent reporting of (O), 26
- Clinical effectiveness, continuity of care and (O), 246
- Clinical performance, in VA medical centers (O), 540
- Clinical practice
  - guidelines for, predictors of adherence to (O), 1172
  - qualitative study of practice-based functional health assessment in (O), 1113
  - quality of life assessment in (O), III-56
- Clinical preventive services, benchmarking of (O), 540
- Clinical research
  - decision dynamics of (O), V-45
  - decisionally-impaired adults in (O), V-20
  - desperately ill patients in (O), V-64
  - screening for cognitive impairment among potential subjects for (O), 771
- Clinical Scholars Program, Robert Wood Johnson, action research of (O), II-25
- Clinical trials
  - ethical recruitment of subjects for (E), 269
  - informed consent in (O), V-45
  - medical care cost analysis and (O), III-63
- Clinician behavior, nonresponse bias and measurement of (B), 347
- Coercion, in informed consent (O), V-69
- Cognitive impairment, six-item screener for in clinical research (O), 771
- Cognitive psychology, in informed consent (O), V-39
- Cohort studies
  - in finding high-quality efficient providers (E), 853
  - of inappropriate drug utilization and health in elderly (O), 166
  - of medication measurement in planning chronic condition treatment (O), 1270
- Colorectal cancer
  - health care factors related to stage and survival with (O), 362
  - screening for, measuring with Medicare claims data (O), IV-36
  - SEER-Medicare data in estimating costs of (O), IV-104
  - SEER-Medicare data in measuring surgery for (O), IV-43
- Communication
  - race and trust in (E), 81
  - racial differences in perception of (O), I-27
- Community-based outpatient clinics, VA
  - access and utilization performance measures of (O), 561
  - cost performance measures of (O), 587
  - evaluation of (O), 555
  - patient perceptions of care in (O), 578
  - quality of care performance measures for (O), 570
- Community health centers
  - for children with asthma (O), 303

- for veterans (O), 555
- Comorbidity
  - claims data in assessment of (O), IV-26
  - impact of different measures of on predicted mortality of intensive care unit patients (O), 929
  - validity of ICD-9-CCM administrative data on (O), 675
- Comparative provider complication rates, from ICD-9-CM Code diagnoses, demise of (E), 847
- Comparative studies, of racial impact on cardiac care and outcomes in veterans with myocardial infarction (O), I-86
- Competence
  - of decisionally-impaired adults (O), V-20
  - in informed consent (O), V-45
- Complementary medicine, utilization of U.S. adults (B), 353
- Compliance, in medical treatment outcomes (O), 794
- Complication rates
  - comparative, from ICD-9-CM Code diagnoses, demise of (E), 847
  - postoperative, comparing across hospitals, administrative data in (O), 856
- Composite International Diagnostic Interview (CIDI)
  - of insured and uninsured patients with depression (O), 1210
  - psychometric properties of (O), 918
- Computer-assisted drug alerts, benefits and barriers to using (O), 1161
- Computerized adaptive testing, for mental health problems in primary care (O), 812
- Confidentiality, recruitment of subjects and (E), 269
- Consent procedures, participation rates in health services research and (O), 283
- Construct validity, of Medicare chemotherapy claims (O), 201
- Consultation, with specialists for neurological conditions (O), 1196
- Consumer Assessment of Health Plans Study (CAHPS), 289
  - design of (E), 725
  - factors affecting response rates to (O), 485
  - nonresponse bias to (O), 190
- Consumers
  - choice of health plans for (O), 289
  - participation of in reporting hospital performance (O), 879
- response of to health care surveys, factors affecting (O), 485
- satisfaction of in health plans, for children and adults (O), 145
- Continuity of care
  - clinical effectiveness and (O), 246
  - in diabetes mellitus type 2 patients (O), 137
- Contracting, for substance abuse and mental health services in managed care (O), 1238
- Control, quality of life and in cancer patients (O), III-28
- Coronary angiography, underuse of following acute myocardial infarction (O), 614
- Coronary artery bypass surgery
  - death rates in (O), 7
  - patient-reported health status in predicting outcomes of (O), 1090
  - race and outcomes of for myocardial infarction in veterans (O), I-86
- Coronary heart disease
  - appropriateness of hospitalizations for and higher rates of cardiac procedures (O), 500
  - mortality rates for (O), 7
- Cost-benefit analysis
  - of AIDS drug assistance programs (O), 429
  - searching literature databases for (O), 387
- Cost-effectiveness analysis
  - of cancer treatment (O), III-63
  - of infant transport systems (O), 705
  - measure-dependent variation in (B), 260
  - of physician questionnaires (B), 834
  - of prescription drug advertisements in medical journals (B), 840
  - of program to prevent depression relapse in primary care (O), 941
- Cost-sharing
  - for office visits and cancer screening among women (O), 1060
  - for patients with depression (B), 338
- Costs
  - drug utilization and in elderly (O), 640
  - measuring (O), III-63
  - of pharmaceuticals (E), 627
  - use of restraints and (E), 851
  - of VA community-based outpatient clinics (O), 555, 587
- Counseling, reliability in adolescent reporting of (O), 26
- Cross-lagged path analytic model, for patient-reported interpersonal and technical quality of care for depression (O), 696

- Cultural competence, in informed consent (O), V-45
- Cultural factors, in adaptation to type 2 diabetes mellitus (O), I-129

## D

- Data collection, on physician practice patterns (O), 1016
- Databases
  - health care economic evaluations in (O), 387
  - ICD-9-CM Code diagnosis information in (E), 847
- Decision making
  - aids to in informed consent (O), V-30
  - in choosing health plan (O), 289
  - dynamics of (O), V-45
  - health-related quality of life instruments in (O), III-31
  - information in (O), V-39
  - informed consent in (E), V-1
  - informed consent in (O), V-12
  - practice-based functional health assessment in (O), 1113
  - quality of life assessment in (O), III-56
  - race and ethnicity in (O), I-140
  - racial differences of in VA cardiac patients (O), I-72
  - in selecting health care plans by people with impaired mobility (O), 732
  - surrogate for decisionally-impaired adults (O), V-20
  - therapeutic misconceptions in (O), V-55
- Deficiency citations, for use of restraints (O), 868
- Delayed care, by race, age, and site of care (O), I-97
- Delivery systems
  - for elderly in managed care (O), 416
  - in improving birth outcomes for low-income pregnant women (O), 1048 *Medical Care* articles on (E), 1003
- Depression
  - cost-effectiveness of program to prevent relapse of (O), 941
  - long-term outcomes for in insured and uninsured patients (O), 1210
  - patient knowledge of health care benefits for (B), 338
  - patient-reported interpersonal and technical quality of care for (O), 696
- Diabetes
  - mellitus, type 2
    - continuity of care, self-management behaviors, and glucose control for (O), 137
    - cultural factors in adaptation to (O), I-129
    - patient compliance in quality of ambulatory care for (O), 155
  - Diagnosis, ICD-9-CM Code, demise of comparative provider complication rates from (E), 847
  - Diagnostic testing, patient socioeconomic status and physician profiles for (O), 717
  - Disability
    - gender differences in with total hip arthroplasty (O), 461
    - selecting health care plans for (O), 732
  - Disclosure, in informed consent of desperately ill patients (O), V-64
  - Disease management, patient socioeconomic status and physician profiles for (O), 717
  - Disparities, in quality of health care (E), 729
  - DNA banking, creating policies of (O), V-4
  - Doctor-patient relationship, self-care and (O), II-40
  - Donor behavior, understanding disparities in (O), 85
  - Drug abuse, antiretroviral therapy and outpatient care patterns and longitudinal intensity of with (O), 976
  - Drug assistance programs, for AIDS (O), 429
  - Drug insurance coverage, utilization and in elderly (O), 640
  - Drug interactions, improving recognition of (O), 1161
  - Drug therapy, predictors of adherence to in indigent rural population (O), 1294
  - Drug utilization, inappropriate in elderly (O), 166
  - Duration of visit, in managed care (O), 606
  - Dysphoric disorder, premenstrual, economic burden of (O), 1101

## E

- Economic burden, of premenstrual dysphoric disorder (O), 1101
- Economic database searches, strategies for (O), 387
- Economic messages, in prescription drug advertisements in medical journals (B), 840
- Economics, of AIDS drug assistance programs (O), 429
- Effectiveness, of residential treatment for severe substance abuse (O), 246
- Eisenberg, John
  - Agency for Health Care Policy and

- Research-funded articles published during directorship of (E), 1003
